Motivated UX graduate with 3 years experience in tech startups, combining a strong knowledge of product design, frontend technologies, and customer experience. Curious and adaptable, with enthusiasm for learning and resolving user pain points.

EXPERIENCE

Glr Mos AB

Vapiano, Stockholm, SE

Mar 2023 - present

- Developed strong communication skills and attention to detail, interacting with diverse customers and resolving issues efficiently.
- Adapted quickly to a fast-paced, high-pressure environment, handling multiple tasks simultaneously.
- Gained expertise in user experience by understanding customer needs and improving service quality.

Apartly

FinTech startup, Stockholm, SE

Jan 2023 - Oct 2023

- **UI Design:** Developed high fidelity prototypes for Apartly's investing platform and Apartly's web presence for relaunch.
- **Design System:** Built a design system and brand including logo, typography, imagery and color scheme.

Freelance

Nov 2022 - Dec 2024

- **Web Design:** Designed and optimized clients' websites through website development, template creation, and SEO.
- **Copywriting:** Created and edited content for an IT blog, sharing engaging and relevant trends with the target audience.

Bosch Business Innovations

spexor, AloT startup, Ludwigsburg, DE

Sep 2020 - Jul 2022

- **User Research:** Interviewed users and identified pain points of business customers in the spexor B2C app to define requirements for B2B.
- **UI Design:** Designed a dashboard and user flows for a spexor B2B app.
- **User Analysis:** Managed the in-house user analytics tool and generated monthly reports of user statistics for stakeholders.
- **Customer Support:** Provided technical support for complex issues that required more than standard customer service.

VOLUNTEERING

Project Leader

Student summer festival

Feb 2022 - Jul 2022

- **Project Management:** Coordinated planning, budgeting, safety concept and visual design for a festival with +1000 visitors.
- **Leadership:** Led a team of 16 students across 6 project units.
